**PRIMARY CARE FACILITY  
VILLAGE OF TANACROSS, ALASKA  
PROJECT NO. AN 02-G50**

**PROJECT SPECIFIC SPECIAL AWARD CONDITIONS TO THE  
FINANCIAL ASSISTANCE SUB-AWARD**

---

DATE OF DOCUMENT:  
May 2003

**A. RELATED AGREEMENTS**

This project is being carried out under the provisions of the following agreements:

- Denali Commission Financial Assistance Award Project Number 0071-DC-2002-I24, Amendment 1, dated August 2002
- Memorandum of Understanding Between the Denali Commission and the Alaska Native Tribal Health Consortium for Alaska Rural Primary Care Facilities and Sanitation Facilities Planning, Design, and Construction, dated June 2002

**B. SCOPE OF PROJECT**

This project will construct a new health clinic in the Village of Tanacross, Alaska. The scope of this project includes design and planning, site preparation, materials and equipment, construction, and labor.

**C. PROJECT FUNDING**

Denali Commission funding for this health facility improvement project has been made available to the ANTHC through a separate Financial Assistance Award (FAA), or amendment to an existing FAA, between the Denali Commission and the ANTHC. It is understood that funds will be transferred in a lump sum and in advance of project initiation. Project activities will not begin until funding is made available to ANTHC.

The Denali Commission stipulates that each project include an in-kind cost share contribution. For this project, the Denali Commission Sub-Award constitutes approximately 80% of the funding, and the cost share contribution constitutes a minimum of 20%. Therefore, this Sub-Award identifies an in-kind contribution from the Village of Tanacross in the amount of \$210,000, \$15,000 of which is land donation and the remaining \$195,000 cash. The in-kind contribution will be added to the Denali Commission award of \$671,424, bringing the amount of the total project cost to \$881,424.

The Village of Tanacross shall provide documentation of its in kind cost share contribution to the Denali Commission. If this documentation is not provided to the Denali Commission, no action will be taken by ANTHC on this project. If in-kind contributions or other funding sources are unavailable, transfers to the Village of Tanacross will be curtailed.

#### D. PROJECT MANAGEMENT METHODOLOGY

In conformance with the Memorandum of Understanding Between the Denali Commission and the ANTHC for Alaska Rural Primary Care Facilities, the following Project Management Methodology option has been selected by the Village of Tanacross:

The Village shall assume responsibility for the design and construction management of the project with oversight and intermittent technical assistance by ANTHC. The local participant shall retain the services of a professional project manager, engineer, and/or contractor for the services defined in the Sub-Award. Project design shall be completed through a competitively selected architect and engineering (A/E) contractor for the Village of Tanacross. Project Construction shall be through Village force account construction method.

#### E. PROVISIONS FOR PROJECT COMPLETION

The following sections from the ANTHC, DEHE Primary Care Facility Sub-Award Provisions Manual (Orange Book), dated April 2002, are incorporated into this Agreement by reference. For the purposes of this Agreement, all references to "Local Participant" shall mean the Village of Tanacross.

- Section 1, "Provisions for All Sub-Awards"
- Section 2, "Assurances for All Construction Projects (Standard Form 424D)"
- Section 3.18, "Local Participant Procurement Provisions"
- Section 4, "Provisions for Local Participant Managed Force Account Labor, and Local Procurement of Force Account Management"
- Section 5, "Insurance and Indemnification Provisions for All Sub-Awards"

## RESOLUTION No. 03- 11

### *VILLAGE RESOLUTION TO PROVIDE FOR THE DISPOSITION OF CULTURAL ITEMS AND/OR ANCIENT HUMAN BURIALS, ASSOCIATED ITEMS, AND/OR ARCHAEOLOGICAL REMAINS*

WHEREAS, the Native Village of Tanacross is a duly constituted Native American Tribe recognized by the Federal Government of the United States, and

WHEREAS, the Tanacross Village Council is the duly elected governing body of the Tribe, authorized to act by and on behalf of its members, and

WHEREAS, the Alaska Native Tribal Health Consortium, hereinafter called the ANTHC, in coordination with other parties, is providing a grant for construction of sanitation facilities in Tanacross under ANTHC Project No. AN 02-G50 to provide for the improved health and welfare of the residents of Tanacross, Alaska, and

WHEREAS, the requirements of the National Historic Preservation Act, hereinafter called NHPA, provide for cultural resources identification and protection through avoidance or mitigation to avoid unnecessary disturbance of reported or known human burials, and

WHEREAS, the NHPA requires Tribes to be consulting parties and contains stipulations regarding the appropriate treatment and disposition of human burials, associated items, and archaeological artifacts, and

WHEREAS, there is no known controversy anticipated with the proposed project and any known or reported ancient human burial, associated item, or archaeological site, and

WHEREAS, the excavation activities associated with construction may result in discovery of ancient cultural items (i.e. human burials, associated items, and archaeological artifacts), and

WHEREAS, it is in the interest of all parties concerned that there be no unnecessary delays in the completion of the construction of the health facilities.

NOW THEREFORE BE IT RESOLVED, that the Tribe expressly stipulates the following conditions for disposition of and control over any and all cultural items discovered on all but private lands during construction of health facilities by all parties to facility construction operations:

1. The Tribe has the responsibility to identify any known or reported archaeological site, artifact, or ancient human remains to avoid unnecessary damage to sensitive resources.
2. Construction shall be delayed in the vicinity of the discovery until notification as per 36 CFR 800 is complete.
3. Appropriate mitigation measures shall be determined as per 36 CFR 800, and all mitigation shall be performed in conformance with 36 CFR 800.
4. An archaeologist retained or employed by any party to facilitate construction operations, will view and document any and all cultural items discovered during excavation if an adverse effect determination has been made.
5. If removal of ancient human remains is necessary, the archaeologist shall remove the entire body. Unless the Tribe requests further study of the remains, tests upon or photographs of any ancient human remains will not occur unless specific, separate Agreements have been made with the Tribe.
6. If a modern human burial is discovered, the Alaska State Troopers shall be contacted to determine if a criminal act can be identified. If the burial is from an archaeological context, the burial will be treated as archaeological remains and need not be treated as a scene of crime.
7. The Tribe assumes full responsibility of any and all cultural items discovered during excavation, on all but private lands.
8. The Tribe reserves the inherent right to determine the appropriate disposition of any and all cultural items discovered during excavation, on all but private lands.
9. The inherent claims or rights of the Tribe are not diminished by the fact that the land is under ownership by another party.
10. If the discovery is made on Federal lands, Indian Allotment lands, or lands not yet conveyed to the Village or Regional Corporation, parties to facility construction operations shall comply with the Native American Graves Repatriation Act if appropriate.
11. All other inherent rights and claims regarding any and all cultural items discovered on any lands other than private lands during excavation for or in support of facility construction not expressly covered in this Resolution are reserved to the Tribe alone.

BE IT FURTHER RESOLVED, that Jerry Isaac, President, is hereby appointed the official representative for the Tribe for the purposes of implementing decision-making actions specified in this Resolution.

CERTIFICATION:

Adopted at a duly convened Village Council meeting of the Village of Tanacross at which a quorum was present on April 9, 2003.

## VILLAGE RESOLUTION TO AUTHORIZE THE PRESIDENT TO REPRESENT THE VILLAGE COUNCIL

RESOLUTION No. 03- 12  
ANTHC Project No. AN02-G50

WHEREAS, the Tanacross Village Council, hereinafter called the Village Council, is the governing body of the Village of Tanacross, Alaska, and

WHEREAS, the Alaska Native Tribal Health Consortium is assisting the Village Council in providing adequate sanitation facilities for the residents of Tanacross, and

WHEREAS, said Village Council has a duly authorized Jerry Isaac, President to represent it in matters concerning sanitation facilities development, design and construction.

NOW THEREFORE, be it resolved that said Village Council hereby authorizes the President to enter into Agreements with the Alaska Native Tribal Health Consortium on behalf of the Village of Tanacross concerning the provisions and transfer of sanitation facilities for Tanacross, Alaska.

BE IT FURTHER RESOLVED that said Village Council will cooperate with the provisions of any Agreement entered into by the Village Council representative and the Alaska Native Tribal Health Consortium and such provisions will be duly carried out.

BE IT FURTHER RESOLVED that this authorization shall remain in effect and shall apply to all forthcoming and successive sanitation facility agreements until further notice is provided by the Village Council.

### CERTIFICATION:

Adopted at a duly convened Village Council meeting of the Village of Tanacross at which a quorum was present on April 9, 2003.

## MEMORANDUM

DATE: May 2003

FROM: Environmental Review Officer

SUBJECT: Clinic Improvement Project, Tanacross, Alaska, AN 02-G50  
Final Environmental Review

TO: FOR THE RECORD

Based upon the scope for this project, an environmental review in accordance with the National Environmental Policy Act (NEPA) and the National Historic Preservation Act (NHPA) has been completed. The Alaska Native Tribal Health Consortium (ANTHC) has considered all potential environmental concerns (specific and cumulative effects) associated with the project in consultation with applicable federal, state, and local authorities. The Environmental Review Report has been completed and reviewed with respect to the proposed health facilities improvement project and is attached to this Memorandum.

## FINDINGS

The ANTHC uses the Indian Health Service (IHS) environmental review procedures for conducting environmental analyses of all health facilities projects, as outlined in the *Environmental Review Manual*, the second edition of which was issued in January 2000. This environmental review finds that no further environmental investigation is necessary. All actions involving construction have been reviewed and no extraordinary or exceptional circumstances were found to exist. It is therefore recommended that the Denali Commission approve a determination of eligibility for categorical exclusion from the requirement to conduct further environmental evaluation for this project. Current IHS policy (Federal Register, Vol. 58, No. 3, January 6, 1993, pp. 569-572) allows for categorical exclusion of health and sanitation facility projects that do not have a significant impact on the environment, as determined by the attached "Environmental Review and Documentation."

## BACKGROUND

Tanacross is located on the south bank of the Tanana River, 12 miles northwest of Tok, off of the Alaska Highway. It lies at approximately 63.38528° North Latitude and -143.34639° West Longitude. (Sec. 32, T019N, R011E, Copper River Meridian.) Tanacross is located in the Fairbanks Recording District.

The population of Tanacross, as of December 2001, according to the Alaska Department of Community and Economic Development, was 140 people.

## ENVIRONMENTAL RESOURCES OF IMPORTANCE

The proposed project includes the construction of a new 3,760 square foot clinic in Tanacross, Alaska. Although the site is undisturbed, it should be noted that the potential for a discovery is low since the community relocated to the present site in 1972. Therefore, the ANTHC has determined that no historic properties will be affected and is sharing this finding with the State Historic Preservation Officer for concurrence. There are no known listed endangered species in the area, and there are no identified environmental resources of importance that would receive direct adverse impacts resulting from clinic construction.

## SCOPE OF WORK

This project will construct a new health clinic in the Village of Tanacross, Alaska. The scope of this project includes design and planning, site preparation, materials and equipment, construction, and labor.

## PROPOSED MITIGATION MEASURES

Given the environmental review performed by the ANTHC, no mitigation activities are proposed for this project.

## SUMMARY

The Yukon Kuskokwim Health Corporation will be responsible for ensuring that final design plans for health facilities will be submitted to the appropriate federal and state agencies for review and approval. In addition, the community of Tanacross, Alaska is responsible for compliance with all applicable federal, state and local environmental laws, regulations, and requirements during all phases of the project, and for obtaining all necessary construction permits.

In any discovery situation of cultural items and/or human remains encountered during the course of the project, the ANTHC shall direct the community to stop construction activity in the area of discovery. The community shall further be directed to notify the ANTHC and the Denali Commission to pursue appropriate steps with the State Historic Preservation Officer for developing an acceptable course of action prior to resuming construction activities in the impacted area.

In the event of any other unforeseen discovery which could change the environmental determination, the community shall be directed to notify the appropriate authority, the ANTHC, and the Denali Commission to develop an acceptable course of action prior to resuming construction activities in the impacted area.

With the scope of work outlined in the Financial Assistance Sub-Award, the ANTHC has completed the environmental review. If the scope of work is changed in the future, then the community and the ANTHC will revisit this environmental review to determine if potential environmental concerns have been addressed.

  
Chris Campbell

# HEALTH CARE FACILITIES ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Facility: Yukon-Kuskokwim Health Corporation Location: Tanacross, Alaska  
Project Description: Construction of Health Center

| Category  | Determination<br>(Yes or No) | Basis for Determination<br>(Documentation, <i>see last page</i> )   |
|---|------------------------------|---|
| PART I.   |                              |   |
| 1. Does this project include construction or lease of new facilities which will total more than 1080 square meters (12,000 square feet)? (Include portable facilities and trailers.)  | No                           | Printed Materials– The proposed health facility in Tanacross, Alaska will total 3,760 square feet.  |
| 2. Does this project involve the construction or lease of new facilities on more than 2 hectares (5 acres) of land?   | No                           | Printed Materials – Less than 2 hectares (5 acres) will be involved in the proposed Tanacross, Alaska facility.   |
| 3. <u>Historic Preservation</u> : Will the proposed project construction or renovation adversely affect properties listed, or eligible for listing, on the National Register of Historic places (buildings, archaeological sites, objects of significance)?<br><br>If a property is more than 50 years old and no determination of eligibility was done, the agency must evaluate and nominate the facility. Contact the State Historic Preservation Officer (SHPO) and document the contact and SHPO response. | No                           | The ANTHC has determined that no historic properties eligible or on the National Register of Historic Places will be adversely impacted by the construction of the new health clinic in Tanacross, Alaska. The State Historic Preservation Officer will be consulted for concurrence with this finding. |

# HEALTH CARE FACILITIES ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Facility: Yukon-Kuskokwim Health Corporation Location: Tanacross, Alaska  
Project Description: Construction of Health Center

| Category   | Determination<br>(Yes or No) | Basis for Determination<br>(Documentation, <i>see last page</i> )   |
|--|------------------------------|---|
| 4. Will the proposed project construction or renovation violate local, state, or federal law on the use and storage of hazardous substances or the transportation, storage, and disposal of hazardous wastes or medical wastes?<br>(Activities that generate those items include renovations, new construction, air conditioning repair and service, pesticide application, motor pools, automobile repair, welding, landscaping, agricultural centers, etc. Repair, renovation, or demolition activities can generate waste that has asbestos-containing materials, asbestos, lead-based paint, PCBs, CFCs, etc.) | No                           | Printed Materials -- The proposed project in Tanacross, Alaska does not violate local, state, or federal law on the use and storage of hazardous substances or the transportation, storage, and disposal of hazardous wastes or medical wastes. |
| 5. Will the project result in a known violation or continuance of a violation of applicable (Federal, Tribal, State or Local) law or requirements imposed for protection of the environment or public health and safety?<br><br>REFERENCE: National Environmental Policy Act of 1969/FR Vol. 58, No.3, K.1., K.2.  | No                           | Printed Materials -- The project will be in compliance with all applicable laws and requirements and will have the appropriated regulatory approvals.   |
| 6. Will the proposed project or construction or renovation result in a conflict with existing or proposed state, federal and local land use plans?   | No                           | Printed Materials -- The project site is not zoned. The Tanacross, Alaska Traditional Council have identified this project as an essential community facility.  |

| 19. Will the proposed project construction or renovation create a need for additional capacity at wastewater treatment facilities?  | No                           | Printed materials – The proposed health facility project will not generate any additional solid waste than at present in Tanacross, Alaska, and will not affect the capacity of the community's wastewater treatment facilities.  |
| 20. Will the proposed project construction or renovation create a need for/or require a storm water control plan? (e.g.; parking lots. Contact local or state authorities, or EPA to determine if your facility or project is in a regulated storm water area.) | No                           | Printed materials – The proposed health facility project will be extremely limited in overall surface area, and is not expected to significantly affect storm water control in Tanacross, Alaska. Storm drainage will be directed away from the building and parking areas. The project is outside of a regulated storm water area. |
| 21. Will the proposed project construction or renovation create a need for additional drinking water supply?  | No                           | Printed materials – The proposed health facility project will not create a need for additional drinking water supply as the same population will continue to be served as previously.   |
| 22. Will the proposed project construction or renovation create a need for additional capacity in transportation systems?   | No                           | Printed materials – The proposed health facility project in Tanacross, Alaska will serve the same population in a community lacking a transportation system.  |
| 23. Are there other considerations about the proposed project construction or renovation that could adversely affect the environment and/or public health and safety?   | No                           | Printed materials – The proposed health facility project in Tanacross, Alaska is not anticipated to adversely affect the environment and/or public health and safety. No toxic building materials will be utilized.   |
